WORK EXPERIENCE

Advanced Technology Learning Center

08/2023 – 05/2025

Student Supervisor (UI/UX Department)

Lubbock, Texas

- Boosted student task resolution efficiency by 65% through intuitive Figma-based instructional visuals.
- Enhanced dashboard usability and optimized user flow by identifying pain points and streamlining interactions, resulting in a 40% reduction in navigation errors and improved user satisfaction.
- Achieved 100% WCAG 2.1 compliance through structured usability testing and iteration.
- Accelerated developer handoff speed by 30% via standardized design components and systems.

Companion Device for Elderly Care (Academic Project)

08/2022 – 05/2023

UX Designer & Front-End Developer

Bangalore, India

- Enhanced elderly user onboarding efficiency by 50% using empathy-driven design.
- Designed and implemented responsive front-end user interfaces based on user research insights, resulting in a 35% reduction in navigation complexity and significantly improving the overall user experience across devices.
- Partnered cross-functionally to deliver an accessible, research-backed product.

Smart DB (Academic Project)

11/2021 – 06/2022

UX Designer

Bangalore, India

- Increased booking success rate by 35% by redesigning appointment workflows and calendar UI.
- Reduced double-booking issues by 45% through iterative testing and A/B validation.
- Applied UCD principles to support diverse user needs and minimize interface friction.
